HEMA VARSHINI KOMMOJU

+91 81794 49134 varshikommu786@gmail.com LinkedIn GitHub

PROFESSIONAL SUMMARY

Software Developer specializing in AI-integrated Full-Stack and Backend Development, with hands-on experience designing scalable web and mobile applications. Skilled in building high-performance backend APIs using FastAPI and Node.js, and integrating AI capabilities including LLM-driven chatbots, MCP server architecture, speech-to-text (STT) processing, and conversational workflows. Proficient in frontend engineering with ReactJS and Flutter, with a solid foundation in Python, Java, database management (MySQL, PostgreSQL, MongoDB), and RESTful microservices. Passionate about engineering end-to-end AI-enabled software solutions, prompt engineering, and agile product development.

TECHNICAL SKILLS

Languages	Python, Java, JavaScript, SQL, C
AI & GenAI Integration	LLM Application Integration, AI Chatbots, Prompt Engineering, MCP Server, Conversational AI, Speech-to-Text (STT)
Frontend Development	ReactJS, Flutter, HTML5, CSS3, JavaScript
Backend & Frameworks	FastAPI, Spring Boot, Node.js, RESTful APIs, JWT Authentication
Databases	MySQL, PostgreSQL, MongoDB
Developer Tools	VS Code, Postman, Swagger UI, GitHub, Google Play Console, DBeaver

PROFESSIONAL EXPERIENCE

Tri Tech Innovations Private Limited **Oct 2025 – Oct 2026**
AI Application & Full-Stack Developer

1. Applicant Management System

ReactJS, FastAPI, MySQL, REST APIs

- Developed a full-featured Applicant Management System to automate end-to-end recruitment and hiring processes.
- Designed secure workflows for managing job postings, candidate applications, interview schedules, and hiring decisions through role-based access control.
- Enhanced recruitment efficiency by implementing applicant tracking, resume management, interview coordination, and real-time application status monitoring.

2. ezstaf job platform

Flutter, FastAPI, MCP Server, PostgreSQL, JWT Authentication, Speech-to-Text, ffmpeg, AI Chatbot Integration

- Developed a scalable job platform using Flutter, FastAPI, and PostgreSQL to connect job seekers with employers through an intuitive mobile experience.
- Integrated AI-powered chatbot features using MCP Server, speech-to-text processing, and conversational workflows to enhance user engagement and accessibility.
- Implemented secure JWT authentication, resume handling, profile management, and backend APIs while optimizing application performance and reliability.

ACADEMIC PROJECTS

Smart Video Feed & Stream Interact

React JS, Node.js, MongoDB, CSS, AI Chatbot Integration, NLP Keyword Processing

- Developed an interactive educational video streaming platform enabling users to upload, watch, and engage with learning content in real time.
- Applied NLP keyword matching to extract relevant topics from video content and map them to contextual responses for intelligent discovery.
- Integrated an AI-powered chatbot that answers user questions during video playback, providing a seamless and personalized learning experience.

Server and Project Portfolio Management System

React JS, Node.js, MongoDB, CSS, REST APIs

- Built a centralized web application to manage organizational resources through dedicated Servers, Projects, and Domains modules.
- Implemented complete CRUD operations for efficient management of server, project, and domain information with secure data handling.
- Developed administrative functionalities for adding, updating, and removing records, improving resource tracking and operational efficiency.

EDUCATION

Aditya College of Engineering and Technology **2021 – 2025**
Bachelor of Technology in Computer Science | **Percentage: 71%**

Sagar Junior College **2019 – 2021**
Intermediate (MPC) | **Percentage: 85%**

CERTIFICATIONS

- IT Specialist Certifications - Python & Java
- Cisco Programming Essentials - C & Python
- Cisco Certified - Cybersecurity & Data Science
- Oracle Recognition - Database Management

INTERESTS

- Quick learner and enthusiastic about open-source contributions.
- Strong verbal and written communication skills.
- Interested in pursuing opportunities in AI application development, full-stack web development, and cloud computing.
